TOURNAMENT RULES

Eligibility

Anglers may fish this tournament as individuals, including fishing from PWC or Kayaks as long as they have VHF communications with Club on VHF Channel 66. The team captain must enter and participate in the tournament. Each team member must be a current financial member of the Tauranga Sport Fishing Club (Inc.) or a club affiliated to the New Zealand Sport Fishing Council. If visiting anglers cannot produce current membership cards, their membership will be checked through the secretary of their club. Failure to be a financial member of a club will result in disqualification from the contest. Team Captains are responsible for this. Day membership to the Tauranga Sport Fishing Club (Inc.) of \$20 per day will be accepted. No team may fish any other tournament during the period of the One Base.

Stand Down

A team may stand down for one year so long as they inform the One Base Committee in writing. A team that stands down two years in a row or fails to inform the One Base Committee in writing of their wish to stand down will be out. A team cannot pay for an entry to retain their position for the following year. If a team captain is standing down, they cannot fish on another boat for that One Base. The priority entry rights belong solely to the team captain and not the boat. The team captains' entry is non-transferable. Team numbers and angler numbers are assigned in order of payment made to the club.

Waitlist

Teams who fish the 2018 One Base have first right of entry into the 2019. In some instances new teams from the waiting list, are offered a provisional 'stand in' position replacing teams on a one year stand down. After this time they will retain their position on the waiting list or gain priority entry. Priority of entry to the waitlist is firstly to teams that had a stand down for the previous year, then teams who were a stand in for the previous year and finally teams who have put themselves forward to the waitlist, all in order of date the committee was informed. From 1 Feb 2018 remaining available entries will be offered firstly to those entrants on the waiting list and then on a first come first serve basis until the limit of 100 teams is reached.

Contest Fees

Entry fees are \$130.00 per angler. All angler fees must be paid for by the conclusion of briefing night, Tuesday 6th March 2018.

Registration

The team captain or a member of the team must register for the tournament and sign an acknowledgement that he/she has read and accepts the rules for the One Base Tournament. A starter pack will be issued to each team. Registration opens at **1300hrs** (1.00pm) on **Tuesday 6th of March 2018** and is located in the TSFC Clubrooms. Anglers must produce some form of ID when registering. Refunds will only be given in exceptional circumstances upon receipt of a written request stating the reason for a refund and approved by the One Base Committee. At any time of the tournament if an angler wishes to change teams they must seek the approval of the Tournament Convenor.

Cut Off Times

Only entries fully paid by **December 1st 2017** will be eligible for the early bird prize draw.

Tauranga Sport Fishing Club will not except late entry or payment. If you have not paid for your Priority Entry by **Wednesday 31st of January 2018**, your position will be passed down the waiting list accordingly

Any team modifications after **January 31st 2018** will incur a **\$15.00** administration fee. No modifications will be allowed after **February 28th 2018**.

Briefing

Attendance at the pre-tournament briefing is compulsory for the team captain or his representative. Briefing will be held in the Club and commences at **1930hrs** (7.30pm) on **Tuesday, 6th March 2018**. Tips for ensuring safe, trouble-free boating this summer

✔ Get your engine serviced

Make sure your boat's engine is up to the job. Schedule an annual service and make regular visual checks.

✔ Change your fuel

If your boat has been out of the water for a while, it pays to replace old fuel with clean, fresh fuel. Never assume your trip will run exactly according to plan – always plan to use a third of your fuel for the trip out, a third for the trip back, and have a third in reserve to allow for anything unexpected.

✔ Give your boat a good once-over

Take a thorough look and make sure everything on your boat is in good working order. Start in one place and work your way around the boat, checking everything, inside and out. If you find anything that is damaged or worn, repair it properly or replace it.

✔ Check your lifejackets

Before reuse, make sure that lifejackets are still the correct size (especially for children) and in good condition. Check that your lifejackets are suitable for the type of boating you do. If you have an inflatable, make sure it's checked and serviced, and regularly check that the gas cylinder is properly secured and not corroded. Remember, too, that lifejackets do not work unless they are worn.

✔ Check your equipment

Look at all of the equipment on your boat and make sure it works properly. Check expiry dates on flares and fire extinguishers, and replace them if they're out of date. Make sure the boat's battery is professionally checked so that it will be capable of operating all electric equipment and have enough strength to start the motor. After lying idle over winter, batteries have a habit of providing a start or two before failing completely. Check batteries on portable equipment such as torches, radios and your GPS, and replace them if you need to. Make sure your distress beacon's registration is up to date.

✔ Think about your emergency plan

Look at where your safety equipment is stored. Can you access it easily in an emergency or after a capsize? Put together a floating 'grab bag' that contains all the emergency gear you will need should your boat capsize. Remember, the best place to store a lifejacket is on your person, with a means of communication in your pocket or attached to you!

Before you go out, brief your crew or passengers on what to do if things go wrong, and practise different scenarios – be mentally prepared for the unexpected.

✔ Wear your lifejacket or PFD

Maritime law requires ALL skippers to carry enough lifejackets of the right size for everyone on board. Lifejackets must also be worn in any situation where there is an increased risk to safety.*

*The Government is currently considering a law change that would make it compulsory for lifejackets to be worn at all times on vessels under 6 metres, unless the skipper gives permission for them to be removed.

✔ Check the marine weather forecast before you go

If in doubt, don't go out. And keep checking the forecast while you are out, using VHF channel 21.

✔ Carry at least two reliable forms of marine communication

A distress beacon (EPIRB or PLB) and a handheld, waterproof marine VHF radio are the most reliable forms of emergency communication. Flares (red handheld, orange smoke and red parachute or rocket) are another useful way to signal that you need help. If carried, cell phones should be inside a resealable plastic bag, but should not be relied on as your only form of communication.

✔ Don't go overboard on alcohol

Alcohol impairs judgement and balance, and its effects are exaggerated on the water. Consumption of alcohol increases the risk of hypothermia and will reduce your survival time if you end up in the water.

✔ Make a trip report

Let someone responsible know where you're going and when you expect to be back.

✔ Be considerate to other water users

Keep a lookout, stick to safe speeds and be patient, so that everyone can enjoy the water.
