MEASURED SNAPPER –

1. Fish must be measured using a IGFA, NZ Fishing Competition, Decoro or TSFC measure board. Measure boards should be used on a flat surface. No other measures accepted unless checked with Tournament Convener.
2. The fish's snout must be touching the nose stop with the mouth closed and free of lures or lifting devices.
3. With the fish lying on top of the measuring device, measurements will be taken from the most forward part of the fish's snout with the mouth closed to the rear centre edge of the tail.
4. All measurements will be made in 0.5 centimetres increments.
5. Fish that measure between increments shall be recorded at the lower of the two increments. For example, a fish that measures between 45 and 45.5 centimetres will have a recorded length of 45 centimetres. This is determined by the last line that falls inside of the fork in the tail. A fork length "on the line" will mean again the lower of the two increments.

Photos must be emailed to catch@tsfc.co.nz, and must include a copy of your angler number.
